THE ROTARY PLEDGE

I do solemnly promise to help advance the object of Ro-
tary, comply with the constitution and by-laws of Rotary
International and the Rotary Club of Marikina, ever putting
into practice Rotary’s Motto: “SERVICE ABOVE SELF.”

THE FOUR WAY TEST

Of things we think, say or do:

Is it the TRUTH?
Is it FAIR to all concerned?
Will it build GOODWILL and better FRIENDSHIPS?
Will it be BENEFICIAL to all concerned?

Heavenly Father we are grateful for the wonderful mixture of blessings, promises and mercy running through our lives, even the trials and lapses of faith.

Again we ask for your help to meet our goal, to fight the good fight, to finish the race, and to keep the faith. Give us new strength to function best and accomplish the most for the Lord when we do what we've been gifted to do; to benefit others and to fulfill His purpose.

We thank You for all things to God the Father in the name of Lord Jesus Christ.

Amen.

The Rotary Foundation Programs for the Youth

Educational Programs

Rotary Foundation Educational Programs promote international understanding by bringing together people from different countries and cultures.

Ambassadorial Scholarships, The Rotary Foundation's oldest and best-known program, was founded in 1947. Since then, more than 40,000 men and women from about 100 nations have studied abroad under its auspices. Today it is one of the world's largest privately funded international scholarships programs. Nearly 700 scholarships were awarded for study in 2009-10. Through grants totaling approximately US\$16.2 million, recipients from about 70 countries studied in more than 80 nations.

The purpose of the Ambassadorial Scholarships program is to further international understanding and friendly relations among people of different countries and geographical areas. The program sponsors academic year scholarships for undergraduate and graduate students as well as for qualified professionals pursuing vocational studies. While abroad, scholars serve as goodwill ambassadors to the host country and give presentations about their homelands to Rotary clubs and other groups. Upon returning home, scholars share with Rotarians and others the experiences that led to a greater understanding of their host country.

Rotary Peace Fellows are leaders promoting national and international cooperation, peace, and the successful resolution of conflict throughout their lives, in their careers, and through service activities. Fellows can earn either a master's degree in international relations, public administration, sustainable development, peace studies, conflict resolution, or a related field, or a professional development certificate in peace and conflict resolution.

Earthquake

Earthquakes can affect our lives in many ways. They cause fires that burn buildings to the ground. This affects you because now you have nowhere to live. They also can destroy whole towns. Family members can be trapped under the rubble inside the house. Now you will mourn for their loss. During an earthquake, tsunamis are created and destroy everything in their path at the beach. This includes buildings and any other of your favorite things to do at the beach. Now you are bored all the time until they get it repaired. If you live in a small town with only one store that supplies you with everything and it gets destroyed, what do you do? You will starve unless you can get help fast. Let's say your town is under a huge cliff. There suddenly is an earthquake, which causes a landslide. Everyone is buried alive. But if you live in a big city there is a great chance that you will survive. This is because it is so big and so populated with important stores that life could go on even if a huge earthquake occurs. So always be prepared for an earthquake.

Fires of the [1906 San Francisco earthquake](#)

If you are worried about how to prepare for an earthquake, you can cast aside your worries because we are here to tell you how. To prepare for an earthquake you should sketch a floor plan so that everyone in your household has a way to escape. Also make a backup plan just in case. On the floor plan mark off where food and supplies are in case anyone gets isolated. Make sure you take the time to go over the floor plan with everyone so that they know what to do. Be sure to make a meeting spot outside of your house. This is your evacuation plan. Remember, if you are stuck inside, stay inside. You could get hit by falling debris.

You may want to make a list of all the things that are important so that you know what gets lost. You can put this list and another list of phone numbers such as the fire station, paramedic, police and things like that in a fireproof safe. You also can get your walls strengthened to help prevent damage.

Well, I hope you learned some new things about earthquakes. Now you know that earthquakes are caused because of tectonic plates moving, and how the energy releases to cause it. Also that earthquake can take a heavy toll on people's lives, because of family losses, destroyed homes, and so on. If you read the section after that, you may know that you have a better chance of an earthquake not destroying your home or injuring you if you (and your home) are earthquake- safe. Always have an evacuation plan and an earthquake kit on hand and ready. If you have read all this it has brought you to where you are now, the conclusion.

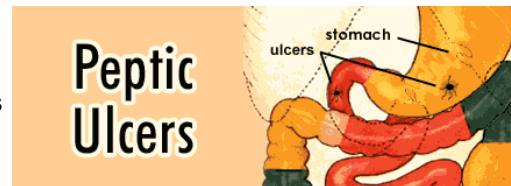

Peptic Ulcers...a continuation

Treatment

The good news is that most *H. pylori*-related ulcers are curable with treatment that combines two different kinds of antibiotics and an acid suppressor. The antibiotics are taken over a 1- to 2-week period and the antacid is given for 2 months or longer. The ulcer may take 8 weeks to heal, but the pain usually goes away after a few days or a week.

To be sure the treatment has worked, doctors may order a stool test to verify the absence of *H. pylori*. If symptoms persist or worsen, doctors might do a follow-up endoscopy 6 to 12 months later to check for *H. pylori*.

Likewise, ulcers related to NSAIDs rarely require surgery and usually improve with an acid suppressor and stopping or changing the NSAID. No antibiotics are needed to treat this type of ulcer.

Caring for Your Child

If your child is diagnosed with an *H. pylori*-related ulcer, make sure he or she takes all of the antibiotics as directed by the doctor. Even if the symptoms disappear, the infection may not be gone until all of the medication has been taken.

If your child has a medication-related ulcer, the doctor will tell you to avoid NSAIDs, including any medication containing ibuprofen or aspirin. Also, be sure to give your child the prescribed acid-reducing medication.

Unless a particular food is bothersome, most doctors don't recommend dietary restrictions for kids with ulcers. A good diet with a variety of foods is essential to all kids' growth and development.

[Alcohol](#) and [smoking](#) can aggravate an ulcer. Also make sure that your child avoids coffee, tea, sodas, and foods that contain [caffeine](#), which can stimulate the secretion of acid in the stomach and may make an ulcer worse.

When to Call the Doctor

Call your child's doctor immediately if your child has any of these symptoms:

- sudden, sharp, persistent belly pain
- bloody or black bowel movements
- bloody vomit or vomit that looks like coffee grounds

If your child has peptic ulcer disease, these signs and symptoms could indicate a serious problem, such as:

- perforation (when the ulcer becomes too deep and breaks through the stomach or duodenal wall)
- bleeding (when acid or the ulcer breaks a blood vessel)
- obstruction (when the ulcer blocks the path of food from going through the intestines)

If your child is taking NSAIDs and shows symptoms of peptic ulcer disease, seek prompt medical attention. Delaying diagnosis and treatment can lead to complications and possibly the need for surgery. But with timely treatment, almost all peptic ulcers can be cured.

STOUT-HEARTED MEN

Give me some men who are
stout-hearted men

Who will fight, for the right they adore,

Start me with ten who are
stout-hearted men,

And I'll soon give you
ten thousand more.

Shoulder to shoulder and
bolder and bolder,

They grow as they go to the fore.

Then there's nothing in the
world that can
halt or mar a plan,

When stout-hearted men
can stick together
man to man.

LET ME CALL YOU SWEETHEART

Let me call you sweetheart
Im in love with you

Let me hear you whisper that you
love me too

Keep the lovelight glowing in your
eyes so true

Let me call you sweetheart
Im in love with you

Let me call you sweetheart
Im in love with you

Let me hear you whisper that you
love me too

Keep the lovelight glowing in your
eyes so true

Let me call you sweetheart
Im in love with you

Notes

...from page 3 **MICROSCOPIC FINDINGS**

Governor Jun Farcon was caught unaware when he arrived at Shell Gas Station along Marcos Hi-way last Wednesday morning, September 8 during the surprise birthday program initiated by the Presidents of the Rotary Clubs of Zone 4. The program was highlighted with the unveiling of a 12 x 14 feet wide billboard. You can see from his face and feel from your heart the happiness and excitement sense of DG Jun on that very moment. DG Lady Zeny (God's Gift to DG Jun), our expert accomplice, was also delighted with the outcome of this simple yet memorable birthday celebration of her husband. Thanks to PD Rey Montoya for allowing us to utilize his place for the installation of such a big billboard of DG Jun Farcon. Let me also thank our fellow members who supported the event and sacrificed their sleeping moments just to attend the surprise birthday celebration of DG Jun Farcon which happened to be the birthday celebration of Mama Mary.
